

# Nujol

REG. U.S. PAT. OFF.

*For Constipation*

## INTERNAL LUBRICATION AS A MEANS TO HEALTH

**R**EGULAR and normal bowel activity is fundamental to health.

True health must be based on the natural functioning of all the organs of the body, unassisted by stimulants.

Laxatives and cathartics are stimulants—bowel stimulants. Physicians have long recognized that practically all the drug remedies for constipation are open to serious objection on this ground.

Being stimulants, their tendency is to weaken the processes of normal evacuation and to create an exceedingly dangerous habit.

NUJOL is not a stimulant, but a lubricant. It is not digested or assimilated, hence does not throw the system temporarily out of gear as laxatives and cathartics are likely to do.

NUJOL prevents the contents of the intestines from becoming hard, lubricates the mucous lining and so promotes an easy, natural expulsion of

waste. It has the important additional property of absorbing the toxins which are responsible for the distressing symptoms of auto-intoxication by which constipation is usually accompanied.

Use NUJOL instead of laxatives and cathartics to overcome occasional or periodic constipation.

Use NUJOL, if you have a costive tendency, to *prevent* constipation.

Use NUJOL, under the doctor's orders, as one of the several measures which may be necessary to gain permanent relief from serious, chronic constipation.

Most druggists carry NUJOL, which is sold only in pint bottles packed in cartons bearing the NUJOL trademark. If your druggist does not carry NUJOL, accept no substitute. We will send a pint bottle prepaid to any point in the United States on receipt of 75c---money order or stamps.
